Description

The Human Capital of Age is the title of an international conference on ageing which took place in Naples on September 15 and 16 2016. The conference was promoted by The Italian Institute for Philosophical Studies, the University Federico II and the University of Campania Luigi Vanvitelli, and organized by ARFACID ONLUS (Association of Social Solidarity for promotion of studies on cancer, aging and degenerative diseases).

We are now publishing (Italian Institute for Philosophical Studies, Naples, December 2017) this booklet including 10 papers of general interest in the series (*Witnesses of the times*) founded by the Late Professor Aniello Montano.
